SCHEDULE GOODS TO BE INSURED

Coverage is subject to a 100% co-insurance clause that requires you to declare replacement cost for ALL items in your shipment. Items that are not listed below are NOT insured. Items grouped together will be considered to be of equal value, therefore items dissimilar in value should be listed separately. You may attach additional pages, if necessary, to properly detail your shipment. Insurers will not pay more than the value declared opposite each category and may require proof of the declared value in the event of a claim. Where applicable, size, manufacturer, model or pattern information is helpful.

I have not completed a valued inventory of the entire shipment, but choose to insure on the lump sum basis of \$8 times the weight (lbs) of the shipment, ADDED TO the above list where values are more than \$1,500 per item or set. I have read and understand the terms of the coverage and I understand the mover is not an agent of Executive Insurance Services and has no authority to change any term or condition.

I request insurance for the total value of the entire shipment as detailed. I have read and understand the terms of the coverage and I understand the mover is not an agent of Executive Insurance Services and has no authority to change any term or condition.
